

Qdell gets Smarter

We will do anything we can to improve our service levels for our customers

We regularly invest in new technology to make delivering your parcels, better and smarter.

We have now updated our courier base to a new booking platform and can now provide online booking similar to our passenger booking system.

This update will provide our courier customers extra benefits when booking with us.

- You can book online using our website www.qdelllhr.co.uk. Providing a better and quicker booking experience.
- You can also make a booking using our Iphone or android app, check the status, edit/cancel bookings and add additional pick ups
- Email confirmation for all bookings.
- We can build a profile for you to ensure that the best service is provided at all times. You can set up regular runs and delivery destinations so that you don't waste time re entering information.
- Real time POD's are available
- More accurate pricing. Just provide us with the exact pick up and destination postcodes and pricing will be generated from our mappoint based mapping and routing program.
- Track the progress of your delivery online or via the app.
- Route optimisation for more efficient multi drops
- Instant pricing available

The new system will be up and running in July
